IMPORTANT Delivery Charges

Derive the Delivery Charge from this page using the weight of your order and standard or express delivery, and insert the charge at **B** on the order form. The Delivery Charge consists of a fixed delivery charge for your location, calculated from where the order was placed, PLUS a charge per kg weight of your order (See tables below). You will notice our total delivery charge is very reasonable because we do not try to profit on delivery charges.

Orders Less Than 1kg

Within State (of order placement)	\$8.00
Interstate	\$9.00

Orders Over 1Kg and Less Than 20kg

Within State (of order placement)	\$8.00	plus	\$1per Kg
Interstate	\$9.00	plus	\$3per Kg

The 'cost per kg' is per kg or part kg.

For example 4.3kg to Interstate is $\$9.00 + 5 \times \$3.00 = \$24.00$

This is the total delivery charge to insert at **B** on the order form overleaf.
